- 200ft. Low Friction Jetting Hose
- Pulse Valve, panel mounted, adjustable
- Mounted Flow Control Valve
- 4 Jetting Nozzles, and Extension

The Bruiser Series Cart Jeters are ideal for residential and commercial plumbers. With 5-6 GPM and 3-4000 PSI, you get more flushing/cleaning performance than smaller pressure washer type machines. The gearbox driven pump offers longer life and better pulsation than cheaper direct driven pumps. Don't be fooled by a lower priced pressure washer conversion, when you can have a Jetter built from the ground up to be a Jetter.

MODEL	GPM	PSI	HOSE
JNW-1305-HU	5.5	3000	3/8 x 200ft.
JNW-2006P-SU	6.0	4000	3/8 x 200ft.
JNW-1405SU/LP	5.0	3000	3/8 x 200ft.

Packed with features not found in other Jeters, such as a mounted flow control and pressure valve, gearbox driven pump, and panel mounted gauge and pulse valve.
