Heavy-Duty Trailer

Rear View Eagle Jetter

For safety and convenience all Eagle 200 Trailer Jetters come equipped with the jetting controls located at the rear of the trailer within easy reach of the jetting hose reel (*engine start/stop, engine throttle, flow on/off, pressure adjustment, pressure gauge, hose pulsation, and hose reel speed control*). Built to feel and function like jetters 3 times the cost. The hose reel features a high torque 1/2 HP rewind motor and our solid state speed control with a speed knob for adjustment, and power wind and un-wind. The trailer is constructed of 4" x 2" box tubing and has a lifetime framework warranty. Rated at 3500 GVW w/electric brakes and break away control the Eagle 200 is built to be towed when full of water. A large, heavy-gauge steel tool bin is located at the rear of the trailer for storage of jetting tools and other gear.

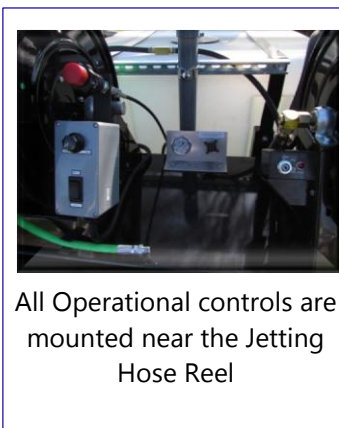

MODEL	GPM	PSI	HOSE SIZE
JNW-2812KU-200TR	12 GPM	3000 PSI	1/2 x 300ft.
JNW-2809SU-200TR	9.0 GPM	4000 PSI	3/8 x 300ft. (400 opt)

Superior Construction and Design, makes our Jetters the most powerful and reliable jetters you can buy...

**NO SHORTCUTS!**

Mounted flow and Pressure Controls

All Operational controls are mounted near the Jetting Hose Reel
